

## CDOT Legislative Update 3/28/25

### Budget Update

In an effort to address the state's budget shortfall for FY26, the Joint Budget Committee adopted several proposals that reduce CDOT's budget in FY26 and FY27. Some decisions originated from CDOT's budget proposals, and some originated from committee members and JBC Staff.

#### **Reductions to General Fund Transfers**

The JBC voted to sponsor legislation that would reduce General Fund transfers to the Department's State Highway Fund authorized under SB 21-60. This includes approval of the Department's proposal to reduce General Fund transfers by \$64 million in FY26 and \$49.5 million in FY27. These reductions will primarily impact funding for the 10 Year Plan. This will reduce the amount of funds allocated to the 10-YP in the next few years, primarily impacting the number of projects we can plan in the next update to the 10YP. The transfers would be increased in future years (FY 30-33) to satisfy the intent of SB 21-260. The JBC also decided to eliminate the \$7 million annual General Fund transfers to the Revitalizing Main Street program, which will completely eliminate new revenue flowing to that program beginning in FY26. This should not affect currently awarded projects but will mean no future awards will be made once the current funding is exhausted.

#### **Reduction of the Road Safety Surcharge**

The JBC voted to temporarily reduce the Road Safety Surcharge fee which would reduce funding for safety-related projects in the FASTER Safety and asset management programs. This decision would reduce the fee by \$3.70 across all weight classes for two fiscal years, resulting in a revenue reduction of \$22 million for FY26 and FY27. The fee reduction would impact CDOT only. The legislation will modify the statutory distribution to hold cities and counties harmless.

#### **Transfer of Funds from the Multimodal Transportation and Mitigation Options Fund (MMOF) to the General Fund**

The JBC denied the Department's request for continuous spending authority for the Multimodal Transportation and Mitigation Options Fund (MMOF). In reviewing the MMOF, the JBC questioned the high fund balance in the MMOF and ultimately decided to sweep a portion of the fund balance that was awarded to local projects but with funds not contractually encumbered. The swept amount totals \$71.8 million and includes \$3.4 million of ARPA that was refinanced with General Fund through HB 24-1466, and \$68.4 million from the non-ARPA account within the MMOF.

Since they decided to sweep a large portion of the fund balance, the JBC also denied the Department's request for a \$50.4 million increase in spending authority for FY26, which the Department requested for the non-ARPA portion of the MMOF to access the full fund balance. They approved the piece of the request that would authorize the remaining ARPA - SLFRF funds to roll forward through the deadline set by the US Treasury to use those funds. Upon the December 31, 2026 deadline any remaining unspent funds will be swept.

The sweeping of MMOF funds will primarily impact local grants. The Department will endeavor to keep projects that are already or soon to be underway moving forward. In order to maintain funding for all of the awards made for funding through FY 25, projects may have to be delayed and awards in subsequent years reduced. Over the next few weeks CDOT will be reviewing the status of awarded MMOF projects, and developing a plan to constrain the MMOF program to the reduced amount of funding now available.

#### **Clean Transit Enterprise Spending Authority**

The JBC denied the Department's request for continuous spending authority for the Clean Transit Enterprise Cash Fund. Instead, they approved a \$36.2 million increase in spending authority for FY26 to allow CTE access

to its full fund balance for FY26. The total FY26 spending authority will be \$49.1 million, and the JBC authorized three years of roll-forward authority for that and future appropriations.

### Marijuana Impaired Driving Program

Based on the most recent revenue forecast for the Marijuana Tax Cash Fund (MTCF), the JBC voted to reduce the Department's annual appropriation from \$950,000 to \$450,000 from the MTCF for FY26. This funding is used to conduct a public awareness campaign about the dangers of marijuana impaired driving.

### Capital Development Appropriation

The Capital Development Committee (CDC) declined CDOT's request for \$281,672 to fund environmentally friendly xeriscaping at the CDOT Arriba Rest Area to reduce water consumption, but maintained the Department's standard \$500,000 appropriation for highway construction projects. The Joint Budget Committee concurred with these recommendations.
